**Our Inks are suitable for High Speed, Low Speed, single or Multi station imported & all flexo machines.**

## Ink Properties

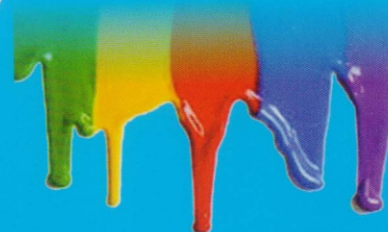

Viscosity	High & Low as per Flexo Machines requirement
CMYK Series	Available
Rub Resistance	Standard, High Scurf Inks available on demand
Water Resistance	Good
Drying	Fast
RoHS Compliance	Yes
Resolubility	Excellent

## Features

-  Bright Colour, High Gloss
-  Good Ink Transfer
-  High Colour Strength
-  Smooth Printability
-  Good Mileage
-  No Foam
-  Non-Corrosive to printing Roller
-  Non-Toxic Products
-  Good Light Fastness

We can provide  
Pantone shades  
and match as per  
your require shades

# Solvent BASED INKS

Solvent based Flexo Inks suitable for Printing on Untreated and HDPE / PP Woven Sacks Bags.

Our Classification of Flexo Inks is superior in quality and gives utmost satisfaction for the requirements of our customer finding. Its application for printing on HDPE and PP unreadred woven sacks bags.

## Features

- Sharp Printability
- High Strength
- Good Scratch Resistance
- Excellent Glossness
- Suitable for untreated and treated HDPE / PP woven sacks bags.

We are providing Luxury Inks as per customer requirement at Economic Rates

## Reducer

We are manufacturer and supplying a wide range of inks reducer. We are developed by highly qualified and experienced professionals, who know well the market requirement. They pass these products though strict quality control before the delivery at your desired place. We offer the complete range of reducer of affordable prices suitable to buyer's budget.

# HARMONY

## TAPE INDUSTRIES

### ADHESION TO HARMONY (Open Side)

750 minimum

### ADHESION TO HARMONY (Close Side)

750 minimum

### ANCHORAGE

No Transfer of Adhesive

### THICKNESS

0.280-0.320

### COATING WT. (EACH SIDE)

110 + / - 10

### RELEASE LINER

Cloth/Polyester 50 micron / paper 90 gsm

### TENSILE STRENGTH

14 of Above

### ELONGATION

5 or Above

### SOLVENT RESISTANCE

Mek / Solvent

### ADHESIVE TYPE

Solvent based Rubber Adhesive

### FEATURE

This tape is made out of cloth and is coated on both sides with strong natural rubber adhesive which also has masking properties. This Tape is laminated with polyester or paper release liner.

### Appication & Usage

This tape is used in mounting stereos and joining
